

ALO GLO

SKIN RESTORATION SERUM AND CLEANSING PADS

THE RESTORATION OF HEALTHY SKIN REQUIRES 3 STRATEGIC COMPONENTS.

1. GENTLE, DEEP-PORE, CLEANSE

Remove the dirt, toxins, oils, makeup and dead skin cells that can weaken both your skin epidermal protective internal barrier and its structural integrity.

ALO GLO 4 in 1 Micellar Cleansing Pads use alcohol-free gentle cleansing micelles, molecules that act like magnets for removing impurities, without compromising healthy pH balance. When combined with plant-based humectants that help the skin retain moisture, its cleansing strategy creates the perfect environment to optimize the ingredients in ALO GLO's Skin Restoration Serum.

2. PROTECT

Up to 95% of skin damage comes from external oxidative influences such as UV exposure, environmental toxins and chemicals found in other skin care products. ALO GLO is formulated with nature's most potent antioxidants and UV protecting oils, without the use of any synthetic fragrances, preservatives, or parabens, to ensure optimal protection.

PLANT BASED

FRAGRANCE FREE

ALCOHOL FREE

PARABEN FREE

3. RESTORE HEALTHY COLLAGEN, ELASTIN AND HYALURONIC ACID PRODUCTION

Oxidative stress accelerates the aging of skin by fracturing collagen and elastin fibers, and collapsing fibroblasts, the immune cells responsible for producing new collagen, elastin, and hyaluronic acid (skin matrix). Specific molecular weights of Acemannan can reactivate and restore fibroblasts to create healthy, youthful looking skin. Alovéa's proprietary Acemannan Aloe vera Extract (Alovéa AETM) contains 4-5 times higher levels of these molecular weights and are formulated into ALO GLO. This is a revolutionary strategy for healthy skin restoration.

NO SYNTHETICALLY MADE INGREDIENTS

Thousands of synthetic chemicals have been used in skincare products throughout the world.

1,400 are banned by the EU

600 are banned by Canada

30 are banned by U.S.

0 are in **ALO GLO Skin Restoration**

Synthetically made detergents, frequencies, and preservatives can contribute to the oxidation of healthy cells and tissues.*

ALO GLO

SKIN RESTORATION SERUM

PROPRIETARY INGREDIENTS:

Water (Aqua), Aloe Barbadensis Leaf Juice, Sodium Hyaluronate, Ceratonia Siliqua (Carob) Fruit Extract, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Propanediol Dicaprylate, Saccharomyces cerevisiae Extract, Acetyl Hexapeptide-8, Glycerin, Sodium Hyaluronate Crosspolymer, Sodium Hyaluronate, Sodium Acetylated Hyaluronate, Hydrolyzed Sodium Hyaluronate, Verbena Officinalis Extract, Withania somnifera Root Extract, Alovéa AE™ (Aloe vera Inner Leaf Gel Powder), 3-O Ethyl Ascorbic Acid, Simmondsia Chinensis (Jojoba) Seed Oil, Saccharomyces Ferment Lysate filtrate, Centella Asiatica Flower/Leaf/Stem Extract, Beta Vulgaris (Beet) Root Extract, Tremella Fuciformis Extract, Squalane, Cyclodextrin, Epigallocatechin gallate, Kappaphycus alvarezii Extract, Caesalpinia spinosa Fruit Extract, Niacinamide, Panthenol, Tocopheryl Acetate, Pentylene Glycol, Citrus Reciculata (Tangerine) Peel Oil, Phenoxyethanol, Ethylhexylglycerin

DIRECTIONS:

Apply to face and neck in an up and out motion. If makeup is going to be applied, wait until dry (approx. 2 minutes) before applying for optimal results.

ALO GLO

4 IN 1 MICELLAR WATER CLEANSING PADS

PROPRIETARY INGREDIENTS:

Proprietary Blend: Water (Aqua), Aloe Barbadensis Leaf Juice, Glycerin, Propanediol, Sodium Laurylglucosides Hydroxypropylsulfonate, Sodium Xylene Sulfonate, Panthenol, Camellia Sinensis Leaf Extract, Chamomilla Recutita (Matricaria) Extract, Disodium EDTA, Phenoxyethanol, Ethylhexylglycerin

DIRECTIONS:

Gently wipe face and eye area with pad to remove makeup and dirt.

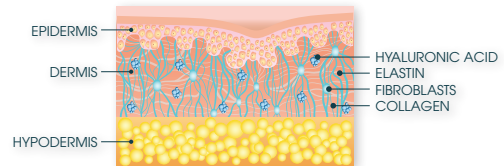

Every Alovéa product purchased helps to nourish children in need through our Buy 1, Nourish 1™ giving initiative. For details, visit us online at alovea.com/hopemovement

ACCELERATED AGING

The UV exposure, pollution, and processed foods create the modern-day perfect storm for the premature aging of our skin. Toxins in almost everything we eat, drink, breathe, and put on our skin cause free radical damage, that due to poor nutrition, we don't have the antioxidant support to adequately defend against.

This daily barrage can break down the structural proteins in our skin, collagen, and elastin as well as collapsing the cells that produce them called fibroblasts.

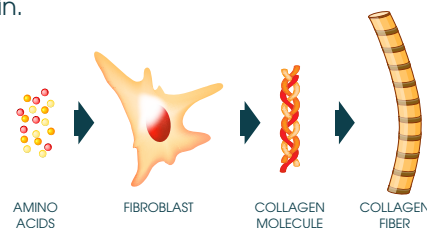

Lines, wrinkles, dry skin, and age spots then begin to develop long before they should.

Traditional skin care systems try to add moisturizing and nutritional components back into the skin in an attempt to slow down or cover up the deteriorating effects. Often with unsustainable results.

ACEMANNAN-INFUSED SKIN RESTORATION

Through cell surface activation, Acemannan restores fibroblasts ability to uptake amino acids from the bloodstream and begin producing levels of collagen and elastin as well as new production of hyaluronic acid the three components that are required for healthy, youthful looking skin.
