CLEAN ENERGY & MENTAL FOCUS ENHANCER WITHOUT THE CRASH

A proprietary blend of vitamins, amino acids, natural caffeine, and bioactive plant compounds that can energize the brain's functions of focus, alertness, attention, and memory.*

FAST-ACTING & SUSTAINABLE IMPACT

Provides 4-6 hours of optimal impact without the insulin response & energy crashes associated with high-sugar drinks.*

SUPER-CHARGED WITH IMMUNE OPTIMIZING ALOVÉA AE™

Alovéa AE™ contains the highest levels of immune activating Acemannan.*

alovéa

DIRECTIONS:

Pour the contents into 8–12 ounces of water and stir or shake well.

Supplement Facts

Contains: **140 mg Caffeine** from Xtenergy Natural Caffeine 60% and Green tea caffeine 99% extract (Camellia sinenses) (Leaves).

SUSTAINED FOCUSED ENERGY VS. A SHORT BLAST OF JITTERS

Many popular energy drinks either spike your blood sugar levels or overstimulate your adrenal glands in order to release high levels of fight-or-flight hormones. Focus provides fast-acting, gentle, and sustained energy. People want focused energy, not jittery energy followed by a crash.

THE SCIENCE-BASED SOLUTION

Alovéa’s FOCUS proprietary formula represents a “Best in Class” nutritional solution to help people feel better, look better, and perform at their very best.* Our innovative formula uses these great ingredients, in the right amounts:

Choline - An essential nutrient that serves as the biochemical building block for acetylcholine, a critical neurotransmitter that helps enhance mental performance.

L-theanine - An amino acid that is similar to glutamate, an excitatory neurotransmitter. L-theanine also supports brain dopamine levels, helping to provide a relaxed, focused effect.

L-tyrosine - A key amino acid that supports brain dopamine production, which is known to enhance mental focus and motivation.

Fermented whole food-sourced vitamins and a patented new **CoQ10** extract, designed for maximum absorption, and to enhance the production of clean energy at the cellular level.

Supercharged with our exclusive Alovéa AE™ Acemannan Extract that contains the industry’s highest percentage of the immune-activating fractions of Acemannan. A strong immune system helps the body direct energy to other critical organs like the brain.

All-natural sweeteners include stevia, monkfruit, and **Palatinose™** isomaltulose, a unique plant-based, low glycemic carbohydrate that provides a sustained release of energy without the unpleasant aftertaste of other sweeteners or the harmful effects of artificial sweeteners. Palatinose™ has a low glycemic index, while maltodextrin, commonly used in energy drink powders, has a very high glycemic index.
